

Syphons

GAUGE PROTECTION FROM STEAM

Syphons protect the instruments from the damaging effects of high pressure steam.

Usually used on steam applications where the “loop” is filled with water and acts as a barrier, preventing live steam from entering the bourdon tube of the gauge.

Also, syphons are used wherever condensing hot vapours are present.

ORDERING CODES

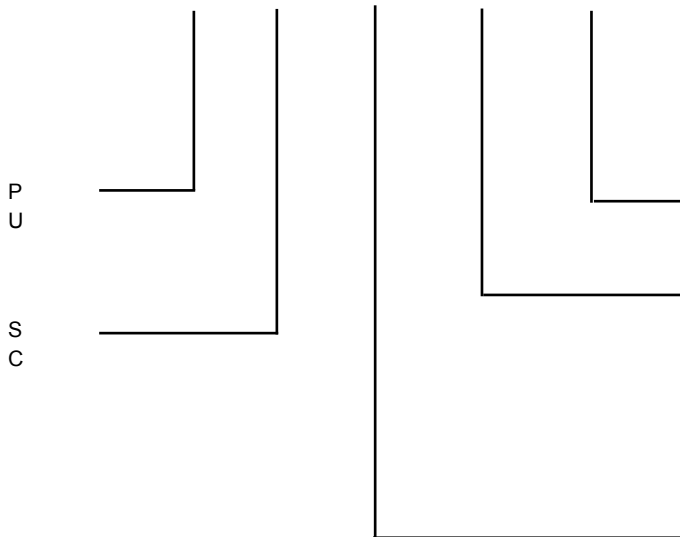

SY - P - S - 8N - MM - 40 (Example Only)

Style:

Pigtail P
U-Shape U

Material:

316SS S
Carbon Steel C

Pipe Class:

Sched 40 40
Sched 80 80

Connections:

MM Male x Male
MF Male x Female
(With socket)

Threads:

4T 1/4"BSPT
4N 1/4"NPT
6T 3/8"BSPT
6N 3/8"NPT
8T 1/2"BSPT
8N 1/2"NPT
